શ z	સ s	હ h	ક્ષ kxZ	ત્ર txr	જ્ઞ jxw	ક્ષ kxr
ફ Pq	એ ]	ઓ }	ભ L	જે 	જે _	

## Conjunct characters:

A simple conjunct is typed by pressing **x** between the consonants.

e.g. **n x n** → **ꠤ**

A joined conjunct is typed by pressing **x x** between the consonants.

e.g. **n x x n** → **ꠥ**

A non-joined conjunct is typed by pressing **shift x** between the consonants.

e.g. **n shift x n** → **ꠦ**

*Alternative:* To change one type of conjunct to another, press the backtick **`** key after it.

e.g. **ꠤ `** → **ꠥ `** → **ꠦ**

## Dependent/Independent Vowels:

The keyboard will normally produce independent vowels, except after consonants, when it will produce dependent vowels.

e.g. **i** → **ꠇ**

**g i** → **ꠈ**

To force an independent vowel after a consonant, press **a** after the consonant.

e.g. **g a i** → **ꠉ**

*Alternative:* To change one type of vowel to the other, press the backtick **`** key after it.

e.g. **ꠇ `** → **ꠈ `** → **ꠉ**

Alternate forms:

In addition to altering conjuncts and vowels, the backtick **`** key can produce changes like these:

e.g. **ꠇ `** → **ꠇ** toggle digits: script ⇌ roman

## Alternate characters:

Various related characters can be obtained by pressing the same key again without pausing.

e.g. **n** → **ꠤ** **n** → **ꠥ** **n** → **ꠦ** **n** → **ꠧ**

If you actually want a sequence of the character, either pause or press **a** in between.

e.g. **n n** → **ꠤꠤ** **n a n** → **ꠤꠥ**

## Smart Quotes:

Press the single quote **'** or double quote **"** key again to switch between left and right smart quotes. e.g. **" "** → **” ”**

## Brackets:

Press the open or close parenthesis key up to 3 more times to obtain alternative forms of bracketing.

e.g. **( ( (** → **[ [ [** → **{ { {** → **⌈ ⌈ ⌈**

**Note to Advanced Users:**

If you need an independent ZWJ or ZWNJ character (very rare), type `space` followed by `x` or `shift x` respectively.
